RED DUST CITY

HUMAN RESOURCE AUDIT

CENTRAL QUESTION

How high is the cost to keep a human alive?

MORNING

One-day self-audit:

- steps
- water
- power (for one person, calculate 1/3)
- calories in
- body activity, pulse, etc.

What activity "costs" what?

AFTERNOON

Do one activity (washing dishes?) in two ways:

- manually
- resource-efficiently

Compare what each way costs in human and material resources.

EVA

What resources are available outside the Habitat?

- toilet
- sitting spaces
- potable water
- shade
- infrastructure

What does a city provide?

QUESTION FOR THE COMMUNITY HOUR

Was würdest du aufgeben, um dein Leben ressourcensparender zu gestalten?

MATERIAL – WHAT DOES THIS NEED

Camera; clipboard, pedometer, pulse measurement
